## **Statement of Request**

**Relic Winery Very Minor**

**Use Permit Modification**

**NCAPN 032-090-024**

**2400 Soda Canyon Road**

**P10-00162-UP**

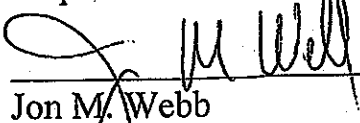

Mike Hirby and Schatzi Throckmorton are the owners of 2400 Soda Canyon Road, NCAPN 032-090-024, and were granted Use Permit P10-00162-UP (UP) to construct a Winery building and caves. The UP allowed for 20,000 gallons per year of wine production with visitations by appointment only. The project improvements were to be constructed in 2 phases, Phase One being the construction of the 8641 square feet (sf) Winery Building, Crush Pad, Access Driveway, Domestic and Winery Waste Septic System, the Mechanical Equipment Area and a Parking Area to accommodate 6 vehicles and Phase Two being the construction of 2458 sf of caves to be used solely for wine fermentation and barrel storage with no visitors allowed in the caves.

By this Very Minor Modification Application, the Owners are requesting a very minor change in use and construction phasing as was originally approved in 2010 Use Permit. The owners are requesting that the Cave be constructed during Phase One and the Winery building be constructed during Phase Two. All other components of the project approved for construction during Phase One will be constructed during Phase One, i.e., the Crush Pad, Access Driveway, Domestic and Winery Waste Septic System, Mechanical Area and a Parking Area to accommodate 6 vehicles will be built, along with the Caves. The Owners are also requesting a modification to the Use Permit so that visitors will be allowed in the Caves with a winery employee as a guide. The Mechanical Area will be increased from the approved 1040 sf to 1152 sf.

As mentioned earlier, the approved Winery building will be constructed as Phase Two of the project.

No other changes or modifications are being requested.
