**BEFORE THE ALCOHOLIC BEVERAGE CONTROL APPEALS BOARD
OF THE STATE OF CALIFORNIA**

LAWRENCE CARR, ET AL.

CASE NO: AB-9587

Protestants/Appellants

File: 02-548261
Reg: 15082334

17 RELIC WINE CELLARS, LLC,

DEPARTMENT OF ALCOHOLIC
BEVERAGE CONTROL,

**DECLARATION OF ANTHONY G.
ARGER**

Hearing Dates: July 16, 2015, November 16, 2015, February 9, 10, 11, 2016

Applicant(s) and/or Respondent(s)

I, Anthony G. Arger, declare as follows:

22 1. I am both a Protestant/Appellant and a counsel of record for
23 Protestants/Appellants Lawrence Carr, *et. al.* (hereinafter Appellants) in this matter. Except as
24 otherwise qualified below, I have personal knowledge of the facts set forth in this declaration,
25 and if called today as a witness, I could and would testify competently as to such matters set
26 forth herein

27 2. On May 18, 2016, Appellants submitted and timely filed their Notice of Appeal to
28 the Alcoholic Beverage Control Appeals Board (“Appeals Board”).

1 3. On June 24, 2017, Appellant's received confirmation that their appeal had been
2 received, accepted and assigned case number AB-9587 by the Appeals Board.

3 4. On July 18, 2017, the Appeals Board mailed notification to the Parties that a
4 hearing in this matter is set for December 7, 2017 and that a briefing schedule has been set.

5 5. Pursuant to the California Code of Regulations, Title IV, Division 1.1, section
6 198, I provide this declaration to set forth the reasons why newly discovered, relevant evidence,
7 even with the exercise reasonable diligence, could not have been produced at the hearing before
8 the Department of Alcoholic Beverage Control ("Department") in the above-captioned matter.

9 6. The substance of the newly-discovered evidence includes (1) updated accident
10 and incident reports for Soda Canyon Road from the California Department of Highway Patrol
11 ("CHP"), and the California Department of Forestry and Fire ("CalFire"), older versions of
12 which were previously produced, as well as (2) accident and incident reports from the Napa
13 County Sheriff's Department ("Sheriff's Department") that were not previously produced,
14 despite diligent efforts to do so, and (3) charts using these new reports demonstrating that not
15 only is there is an upward trend in the number of accidents, but there certain times of the year
16 when there are more accidents, which correlates to the busiest times of year for wineries and
17 receiving tasting room guests. All of this information is collectively referred to as "Newly
18 Discovered Evidence."

19 7. More specifically, attached hereto as **Exhibit 1** is an updated Incident Report
20 Summary from the CHP ("Updated CHP Summary") that includes accidents and incidents on or
21 near Soda Canyon Road from January 1, 2013 to March 22, 2017. As I testified during the
22 hearing in this matter, *see Certified Transcript from February 9, 2016* ("Feb. 9 Transcript") at
23 141-43, I personally prepared the original and the attached updated summary based on a review
24 of each and every CHP original record referenced in the summary, and simply summarized the
25 information exactly as it appears in each individual CHP report. As provided in his declaration,
26 David J. Hallett obtained these updated CHP records that I used to compile the Summary.
27 Additionally, pursuant to the California Evidence Code, section 1523(d), and similar to my
28 testimony on February 9, 2016, *see id.*, I am willing to provide oral testimony that the contents of

1 the Updated CHP Summary is “is only the general result of the whole,” so as to have only the
2 Updated CHP Summary admitted as the newly discovered evidence, and thereby avoiding a
3 “great loss of time” on the part of the court to examine the hundreds of pages worth of individual
4 CHP incident reports that comprise the Updated CHP Summary, attached hereto as **Exhibit 2**.

5 8. Attached hereto as **Exhibit 3** is an updated summary of Incident Reports from
6 CalFire (“Updated CalFire Summary”) that includes accidents and incidents on Soda Canyon
7 Road from January 7, 2005 to December 20, 2016. Similar to the CHP Incident Report
8 summaries, I personally prepared the original and the attached Updated CalFire Summary based
9 on a review of each and every CalFire record referenced in the summary, and simply
10 summarized the information exactly as it appears in each individual CalFire report. Moreover,
11 pursuant to the California Evidence Code, section 1523(d), and similar to my testimony on
12 February 9, 2016, *see Feb. 9 Transcript* at 141-43, I am willing to provide oral testimony that the
13 contents of the Updated CalFire Summary is “is only the general result of the whole,” so as to
14 have only the Updated CalFire Summary be admitted as the newly discovered evidence, and
15 thereby avoiding a “great loss of time” on the part of the court to examine the hundreds of pages
16 worth of individual CalFire incident reports that comprise the Updated CalFire Summary,
17 attached hereto as **Exhibit 4**.

18 9. Attached hereto as **Exhibit 5** is a summary of the Calls for Service from the
19 Sheriff’s Department (“Sheriff’s Summary”) that includes accidents and incidents on Soda
20 Canyon Road from January 9, 2014 to March 6, 2017. Similar to the Updated CHP and CalFire
21 Summaries, I personally prepared the attached Sheriff’s Summary based on a review of the
22 Sheriff’s Department records referenced in the summary, and simply organized the same
23 information. Attached as **Exhibit 6** are copies of (1) the Sheriff’s Department Calls for Service
24 from January 2014 to September 2016, (2) the Sheriff’s Department Calls for Service from
25 January 2014 to March 2017, and (3) the “Naturecodes” describing the different types of
26 incidents. As described in their respective declarations, David Hallett and Lauren Griffiths
27 obtained these records directly from the Sheriff’s Department.

1 10. Attached as **Exhibit 7** are two graphs showing accident trends on Soda Canyon
2 Road from combining the reports of the CHP, CalFire, and the Sheriff's Department during the
3 overlapping years of 2014, 2015, and 2016. These graphs were created by
4 Protestants/Appellants' expert witness, Dr. Amber Manfree, PhD.

5 11. This Newly Discovered Evidence is highly relevant because it provides further
6 support to Appellants' repeated contentions that Soda Canyon Road, under existing conditions, is
7 extremely dangerous and allowing, and in fact encouraging, another 4,500 potentially inebriated
8 individuals to drive 4.1 miles up the dead-end Soda Canyon Road to taste wine at Respondent's
9 winery, and then another 4.1 miles down Soda Canyon Road afterward is going to increase that
10 danger because these individuals may cause more potentially life-threatening accidents on the
11 road. This, in turn, is contrary to the public welfare and morals of all residents and current users
12 of Soda Canyon Road. In California, "*traffic, parking, safety, noise and nuisance problems... clearly represent concerns that are well within the domain of the public interest and public welfare.*" *Breakzone Billiards v. City of Torrance* (2000) 81 Cal. App. 4th 1205, 1246 (emphasis added). Records of recently reported public safety and traffic-related incidents from three
15 different governmental agencies that are charged with protecting and enforcing the public's
16 safety, on the very dead-end road where the Applicant seeks to utilize a license from the
17 Department, are among, if not the most reliable evidence showing how dangerous Soda Canyon
18 Road is under existing conditions. As such, this evidence is clearly "within the domain of the
19 public interest and public welfare," and is thus highly relevant to the Department's consideration
20 of granting a Type 02 license to the Applicant. Additionally, it is noteworthy that the Applicant
21 has been operating under a temporary license from the Department since May 2015, and during
22 that time the number of accidents and incidents on Soda Canyon Road has *increased, see*
23 **Exhibit 7**, demonstrating that the Applicant's addition of some 4,500 visitors per year to the road
24 under its temporary permit may be contributing to the increase in accidents, and providing
25 further reason to admit this evidence and then reverse and remand the Department's decision in
26 this matter.
27

1 12. This Newly Discovered Evidence relates to the entirety of Appellants' and their
2 witnesses' testimony relating to public safety incidents on Soda Canyon Road and how they
3 impact the public's safety and welfare because it highlights (1) the frequency with which
4 accidents and incidents occur on this one-way in, one-way out, dead-end road, *see Exhibits 1-7*,
5 (2) that 74% of the combined agency accidents (471 of 639) over the three year period from
6 2014 to 2016 occur from March to October, which is the busiest time for winery tourists in Napa
7 and is likely no different for the Applicant, *see Exhibit 7*, and (3) the upward trend in the
8 number of accidents on Soda Canyon Road as more traffic is introduced (there was a 38%
9 increase from 2014 to 2016 according to the combined agency data – *see Exhibit 7*). Even
10 Judge Loehr, who initially handled this case in 2015, correctly outlined that in their protests,
11 Appellants “raised concerns about public safety because of the potential for increased fires from
12 additional vehicular and patron activity, and the inability of resident to ingress and/or egress the
13 area on the two-lane road.” *Certified Transcript from July 15, 2016 (“July 15 Transcript”)* at 18.
14 He further responded to an early attempt by Respondent to exclude the majority of Appellants'
15 exhibits pertaining to CalFire and CHP reports, as well as other public safety related documents,
16 on relevancy grounds, by stating that “what the Protests did do, at least from my reading of them,
17 was that they framed it in a manner such as this: That the issuance of the license poses a serious
18 safety risk to the public welfare,” which is a “broad concept.” *July 15 Transcript* at 23. More
19 specifically, this evidence which could not have been earlier produced relates to the testimony of
20 Mr. Arger, Mr. Shepp, Mrs. Shepp, Mr. Apallas, Ms. Palotas, Mr. Heitzman, Mr. Wilson, Ms.
21 Hirayama, Ms. Hallett, and Mr. Hocker, all of whom raised concerns of either/both the existing
22 dangerous conditions and public safety concerns from fires to traffic and accidents on Soda
23 Canyon Road. *See July 15 Transcript* at 18-20, 23, 30-31, 182; *Feb. 9 Transcript* at pp. 15, 17,
24 20, 23-25, 29, 31-32, 37-40, 72-81, 107, 116-17, 124-25, 128, 130-31, 138, 147-48, 153, 157-58,

1 13. Witnesses expected to testify on this evidence include Mr. Arger and Ms. Grupp,
2 but could also include Mrs. Shepp and Ms. Palotas, depending on availability. As to the
3 substance of their testimony, each of these individuals previously spoke about concerns relating
4 to public safety in the form of traffic accidents and fire, and would use this evidence to further
5 demonstrate the inherent, existing dangers of the dead-end, narrow, steep and dilapidated Soda
6 Canyon Road. If necessary, Mr. David Hallett could also testify for the very limited purpose
7 of explaining his thorough and diligent attempts to collect records from the Sheriff's Department,
8 and Ms. Griffiths could testify regarding her assistance in collecting same.

9 14. The nature of the exhibits to be introduced would be documentary only, and need
10 only be the relatively short summaries (**Exhibits 1, 3, and 5**) I compiled using the records from
11 each public agency, as well as the two charts included with **Exhibit 7**. However, the entirety of
12 the hundreds of pages of individual agency records can also be produced should the Board deem
13 it necessary to do so.

14 15. The Updated CHP Summary attached as **Exhibit 1** and corresponding CHP
15 Incident Detail Reports attached as **Exhibit 2** that were used to comprise the summary could not,
16 even with due diligence, have been produced at the hearing before the Department because the
17 majority of these incidents took place *after* the hearings before the Department, thus making it
18 impossible to have produced them because they had not yet occurred.

19 16. The Updated CalFire Summary attached as **Exhibit 3** and corresponding CalFire
20 incident detail reports attached as **Exhibit 4** that were used to comprise the summary could not,
21 even with due diligence, have been produced at the hearing before the Department because the
22 majority of these incidents took place *after* the hearings before the Department, thus making it
23 impossible to have produced them because they had not yet occurred. Moreover, when
24 Protestant/Appellant Lynne Hallett collected the first set of reports from CalFire, *see P-Exhibit*
25 **VI H2**, it was understood that these records, dating back to 2007, comprised the entirety of
26 available records for Soda Canyon Road from CalFire. It was not until this past spring of 2017,
27 when I personally contacted CalFire to submit another public records act request for updated
28 CalFire records, that I learned from the representative I worked with, Captain Russell West, that

1 records could be obtained back to 2005. As such, I requested the entirety of all CalFire records
2 for Soda Canyon Road for as far back as could be provided, received same, which includes some
3 additional records for the years 2007-2015 that were not previously provided despite Mrs.
4 Hallett's request, and have included them in the updated summary report. Thus, despite
5 reasonable due diligence at the time the original records were requested (evidenced by the fact
6 that Protestants/Appellants were able to obtain records from CalFire back to 2007 – *see P-*
7 **Exhibit VI H1-5**), these older and more complete records were not produced.

8 17. As explained in more detail in the Declaration of David J. Hallett, the Sheriff's
9 Department records could not have been produced at the hearing before the Department because,
10 despite his repeated efforts and due diligence to collect the records, the computer system in place
11 at the Sheriff's Department up until sometime in 2016 did not allow the deputies to search and
12 provide accident and incident reports for the entirety of Soda Canyon Road. As soon as he
13 became aware that the records could be obtained in or around October 2016, he did so. *See*
14 Declaration of David J. Hallett. Unfortunately, this was well after the hearings before the
15 Department concluded in February 2016. Importantly, however, there can be no question that
16 Mr. Hallett's repeated attempts to obtain records from the Sheriff's Department throughout 2015
17 and 2016 constituted reasonable due diligence to obtain same.

18 18. The graphs attached as **Exhibit 7** showing the upward trend in accidents and
19 incidents on Soda Canyon Road could not have been produced, even with reasonable due
20 diligence, at the hearing before the Department because the data from the CHP, CalFire, and
21 Sheriff's Department used to make said charts and graphs either did not exist (because the events
22 had not yet happened at the time of the hearing), or could not be obtained (i.e. the Sheriff's
23 Department records, as explained by Mr. Hallett). As a result, there is no way these graphs could
24 have been produced at the time of the hearing.

25 19. In the spring of 2014, Waugh Family Wines (license number 535163) was
26 formally contested by one resident on Soda Canyon Road. Approximately 30 other residents and
27 property owners, including myself, from Soda Canyon Road attended the hearing to protest, but
28 because they were not formal protestants, were not permitted to speak. The single protestant

1 who opposed this application was an elderly woman who lives at the bottom of Soda Canyon
2 Road who did not have any legal counsel. She made a few personal remarks as part of her
3 protest, but otherwise did not provide any documentary or video evidence, as did the Protestants
4 in the instant case, demonstrating the profoundly dangerous nature of Soda Canyon Road. Due
5 to her otherwise insufficient protest, the Department granted the application.

6

7 I declare under penalty of perjury under the laws of the State of California that the
8 foregoing is true and correct. Executed as of this 17th day of August, 2017 at Reno, Nevada.

305	7/25/2016	6780	Emergency Medical Service, other. Provide basic life support (BLS). Engine 25 responded to a medical for possible 1144. Upon arrival with AMR medics 66, was met with property owner and led into location of camper trailer with person inside. Engine 25 crew had to force entry into the trailer. Once entry was made, it was obvious that the 47 yr old male inside the trailer had multiple signs of death. Deceased was lying on his bed inside the trailer and decomposing for possibly several days. Property owner stated the last time he had contact with deceased was 3 days prior. ECC was notified of confirmed 1144 and requested coroner to respond. NCSO arrived at scene and took over the scene. All units available.	3102 Soda Canyon Road 9:04 PM	7:26 PM	
306	7/26/2016	6801	Forest, woods or wildland fire. Contain fire (wildland). FWLW-1466, E-25, WT-25, E-1476, E-1495, B-1416 respond for a vegetation fire on Soda Canyon Road. Upon arrival we extinguished .60 acres. The end cause/ignition source ultimately undetermined because of the lack of evidence discovered at the scene. However, Arson and Vehicles included as possible fire cause class. Arson included because of a possible hot start with a lighter. Vehicle also include as possible fire cause class because there were water tenders and construction vehicles using the roadways; cannot rule out a vehicle passing by dragging a chain, etc.	2151 Soda Canyon Road 1:06 PM	8:57 AM

Source: California Department of Forestry and Fire Protection: Interagency Report of Incident and Dispatch Action; California All Incident Reporting System (CAIRS)**

**While CalFire provided the two different types of reports that compose this summary, the reports differ in format and in the amount of information they contain. Specifically, the reports use a different labeling/numbering system for the incident/event numbers, and the CAIRS reports are more descriptive as to the details of a specific incident. As a result, the incident/numbering is different, as are the descriptions for different incidents.
